

Elva Mk2 1957

Coventry climax 1100

Historic racer FIA papers - street legal

Elva is brand founded in the 50th from Frank G. Nicols in the UK. This Elva competed in the US successful against Lotus 11, Cooper.. a nice picture of the car can be found in the latest Elva book. The Elva MK 2 is running with matching numbers engine a 4-cylinder 1100cc Coventry Climax engine. The car has the original aluminium bodywork with wonderful Patina. The car has app.400kg weight and handles very nicely. The car is a actually registered in Germany and can be raced in a lot of race series or rally's worldwide, including Peter Auto, Goodwood, Oldtimer Grand Prix....a good documentation of the restoration in 90's comes with the car.
